Acoustic Pinboard
by Gunnersen

Acoustic Pinboard is a 9mm thick decorative interior wall covering of woven polyester board available in black, white, and grey. The panels are highly durable, absorbs noise, and are great as a pinboard. Acoustic boards provide an attractive sound solution to office spaces and interior design applications. Easily transform any vertical surface into a vibrant, noise reducing display pinboard.
Applications:
- Pinboard or substrate for fabric covered pinboards
- Acoustic lining for sound absorption
- Impact board to reduce damage due to surface impact
- Meeting room walls
- Lecture Theatres
- Classroom walls
- Corridor walls
- Music rooms

Finishing:
Three colour options available; white, grey, and black (pictured below).
For interior use only. Can be covered in fabric for a different look.

Key Features:
- Light weight
- Strong and durable
- Cost effective
- Wall and ceiling compatible
- Ideal for commercial and domestic applications
- Stylish and easy to install
- Can be covered in fabric for a different look

Installations Options:
- Bond directly to surface using Maxbond, Liquidnails, No-More-Nails, etc
- Screw through to the surface
- Insert into a frame to hang
Can also be affixed behind perforated panels and under surfaces to decrease noise pollution.
